ABSTRACT

This collection of statistical data on elementary and secondary school media programs is designed to assist local education agencies in examining their library media programs according to concepts contained in "Criteria for Modern School Library Media Programs," and other publications of the Maryland Division of Library Development and Services. These tables are the result of the compilation of statistics from the school and system level Annual Library Media Center Reports, which are submitted by each local agency, and provide comparative data about staff and collections relating to the criteria as well as information about expenditures and materials purchased with Elementary and Secondary Education Act, Title II and Title IV B funds. INTRODUCTION

This collection of statistical data on school library media programs is designed to assist local education agencies in examining their library media programs according to concepts contained in *Criteria for Modern School Library Media Programs* and other publications of the Division of Library Development and Services.

The charts in *Facts About Maryland's School Library Media Programs - 1977-78*, are the result of the compilation of statistics from the school and system level Annual Library Media Center Reports, which are submitted by each LEA. They provide comparative data about staff and collections relating to the *Criteria* as well as information about expenditures and materials purchased with Elementary and Secondary Education Act, Title II funds (ending Fiscal Year 1977), and Elementary and Secondary Education Act, Title IV B funds (beginning Fiscal Year 1977).

It is hoped that this information will provide assistance as you assess, plan, and develop your library media programs.
